06 - 117 Physician Billings For Office Administered Drugs

Beginning October 1, 2006, billings for drugs administered in the physicians office will need to include the NDC from the vial or container from which the drug is obtained, as well as the quantity of units administered. Beginning January 1, 2007, claims that do not include this information along with the HCPCS J-Code will be denied for payment. Modifications to the claim form are in place to accept this data.

○

06 - 118 Change in Pharmacy Reimbursement

Beginning January 1, 2007, the new Federal Upper Limits guidelines will include all drugs for which an "A" rated version is available. The new price indicator will not be AWP, but will be AMP plus dispensing fee. States may calculate the FUL at any level below the maximum of 250% of the AMP.

The new reimbursement will be based on AMP. These reimbursements will be published in the January 2007 Medicaid Information Bulletin.
